CELEBRATING TINY TRIUMPHS

“Education is the most powerful weapon which you can use to change the world”

It gives me an immense sense of happiness and honor to announce that G.D. Goenka School Varanasi is all set to commence its fourth session with enthusiasm and commitment to providing an all-round quality education to the young and budding learners. I look forward to engaging students, educators, families and the general public by creating meaningful, applied learning experiences which can lead to increasing literacy to the benefit of the nation as a whole.

Children need to be exposed to and participate in interactive activities and scenarios that will harness their curiosity and motivate and inspire them to investigate the world around them. We aim at providing young people with continuous opportunities to develop their talents and demonstrate what they know and can learn. Each child’s untapped potential is waiting to be unleashed.

I would request all the parents to inculcate self-discipline in their children and spend some quality time with them, to support them in independent decision making and help them identify their innate skills and talents.

I would expect my teachers and faculty to prepare students to be creative thinkers who are able to reason, solve problems and create new knowledge to enable them to follow any path they might choose as they become tomorrow’s citizens.

The most valuable skill that you can sell is your knowledge and good education is a pre requisite for it. So I would say to all children to be good learners and be focused, ambitious and be the best of whatever you are.

Wishing everyone great success for the new beginning!

Best wishes,

Mr Dinesh Kumar Gupta
Chairman

MR. RAHUL GUPTA (MANAGING DIRECTOR)

You are the unstoppable drive.....

Life poses innumerable challenges and the goal of education is to help one to successfully brave through them.

It is my strong conviction that we all grow with an innate desire to achieve a “Dream”. Do not give up your dream because as you continue trying, you are inching closer to it. I want my students to understand, question, remember and act upon everything that their surroundings teach them. They should not only be well educated but also courageous and compassionate.

Our students have consistently been recognized for their outstanding performance and intellectual accomplishments. The school offers a harmonious learning environment, which opens doors for wholesome development of children.

Imagination is as important as acquiring knowledge. For knowledge is limited to all we know and understand, while imagination embraces the entire world and all there ever will be to know and understand.

Albert Einstein once said, ‘Dear students our goal is one, self-realization and actualization. Don’t even lose a fraction of your enthusiasm, come up with new ideas and take big decisions.

My message to the Principal, staff, students and esteemed parents of the school is to dedicate this year to correct understanding of what education really means and to take benefits from this understanding.

I extend my sincere and heartiest gratitude to the staff and parents for their constant support and cooperation. Let education free us from the shackles of ignorance.

Greetings to All !!!

Technology today has made a significant impact on the Indian Education System. Now the system is dominated by 'improved learning and increased engagement,' we at G.D Goenka School Varanasi continue our indefatigable efforts to ensure all our students have access to all possible state-of-the-art technology. I feel privileged to be part of this family. Here each day brings new experiences. It is great to work with dedicated, innovative and caring staff and the inquisitive young minds eager to learn new things.

It is a challenge to come up to the expectations of the students. It is our duty to satiate their curiosity. We at G.D.Goenka School Varanasi constantly keep updating ourselves to keep pace with the ever changing trends.It is our endeavour to provide the best to our students. Each child is precious to us. We believe each child is born with some innate talent which needs to be identified otherwise it gets lost without reaching its fruition. We need to guide them towards the right path to translate their talents to full potential.

We believe that powerful learning takes place where there is mutual respect between teachers and students. When people are valued, it helps them to fulfil their potential both as students and teachers. With the support of the dear parents we seek to create an environment that will help the students to realize their dreams and also contribute towards the building of a healthy society.

MRS. SHREYA GUPTA
(ADDITIONAL MANAGING DIRECTOR)

Dear Parents, Teachers, Students and well-wishers

Excellence is not a destination, it is a journey that never ends.

With a paradigm shift in the field of education we, at G.D.Goenka School Varanasi aim not only at academic excellence but also promote holistic development of the child. Guided by the unparalleled vision and mission of our Founder Chairperson (Mr) Dinesh Gupta, the school philosophy empowers the child to explore beyond the textbook and become lifelong learners, thus, embarking on a quest for excellence.

The school aspires to create an educational environment which focuses on the development of potential, encourages originality in thought and action, cultivates reverence for heritage, sensitivity for environment and promotes internationalism.

The core aspect of value education is deeply embedded in the comprehensive school curriculum. The plethora of events and activities help each child evolve as an academic achiever as well as an ethical and caring global citizen.

Infused with an iron clad will to succeed, the passion to excel and the perseverance to accomplish, each Goenkan marches ahead setting historic benchmarks. Fuelled with higher aspirations and motivations, we carve out a luminous path each year and redefine success. I am confident that with renewed faith and vigour we will scale loftier heights and set benchmarks that make us all feel proud.

English is the language most widely used for communication and the first global lingua franca. In the modern era, English happens to be the most popular and the most spoken

language. Children who know English not only excel in exams but are known to do well in practically every aspect of their dealings.

Assessment of one's language skills is the key to identifying and measuring one's "educational achievement". People's lives around the world are shaped by the outcomes of such assessments, which they receive as part of their education process.

Assessment is used at all the times in every field, for taking decisions. However, the holistic assessment we offer is extremely useful as it helps shape the future of an individual and

plays a critical role in the process of laying foundation for his/her career.

Hence UIEO's effort is to present its students with an all-encompassing assessment that will place them at the threshold of easier learning and mastering the language of the world, in the easiest and the quickest way.

"Health is wealth" keeping the proverb in mind, today we organized a one-day 'Free Health Check-up Camp in the school campus wherein Doctors from different departments such as ENT, EYE, PEDIATRICS, and DENTAL were invited in this camp and they offered their voluntary services whole heartedly. Doctors not only examined all the students and other faculty members but also gave them valuable insights on how to maintain a fit body with respect to today's day and age.

DID YOU KNOW?

Just 2 bananas will provide you with enough energy for an intense 90-minute workout.

Apples are more effective in waking you up in the morning than coffee.

Eating cucumbers before bed time can help you wake up feeling refreshed and headache-free.

3 carrots give you energy to walk 3 miles. They were first grown as a medicine, not food.
