Let's "Save our environment and join the race to make the earth a better place....The Goenkans at G.D Goenka School, Varanasi took this pain and recycled paper which can be reused ...

We believe recycling, reusing the paper to save our nature. All the students in the school very enthusiastically participated and created a new paper after recycling the scrap. They had start the preparation days back for this process by collecting the scrap paper from all over , that is their classes, homes and so on. Hence, it was a beautiful and surprising scene when the recycled paper was in front of them. The goal was to make new and usable paper. This was a baby step taken by Goenkans where in they realised the value of nature.
